About the Fund

The ETFMG Prime Mobile Payments ETF (IPAY®) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the Prime Mobile Payments Index. The Index provides a benchmark for investors interested in tracking the mobile and electronic payments industry, specifically focusing on credit card networks, payment infrastructure and software services, payment processing services, and payment solutions (such as smartcards, prepaid cards, virtual wallets).

About the Index

The Prime Mobile Payments Index (PMOBILEN) is designed to provide a benchmark for investors interested in tracking the mobile and electronic payments industry. The stocks are screened for liquidity and weighted according to a modified linear-based capitalization-weighted methodology. The Index generally is comprised of 25–40 securities. An investment cannot be made directly in an index.

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund's prospectus, which may be obtained by calling 1-844-ETF-MGRS (1-844-383-6477), or by visiting www.etfmg.com/IPAY. Read the prospectus carefully before investing.

¹ AUM as of 9/30/21 and is subject to change on a daily basis.

² Holdings are subject to change without notice.

³ Security Lending income is expressed as the result of dividing net securities lending income for the twelve months ending 9/30/21 divided by the average daily net assets of the Fund for the same period.

⁴ Effective August 1, 2017 the name of the PureFunds ISE Mobile Payments ETF is changed to the ETFMG Prime Mobile Payments ETF (the "Fund").

⁵ The Fund's benchmark before 8/1/17 was the ISE Mobile Payments Index. On 8/1/17, the Fund's benchmark became the Prime Mobile Payments Index.

Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Narrowly focused investments typically exhibit higher volatility. Mobile Payment Companies face intense competition, both domestically and internationally, and are subject to increasing regulatory constraints, particularly with respect to fees, competition and anti-trust matters, cybersecurity and privacy. Mobile Payment Companies may be highly dependent on their ability to enter into agreements with merchants and other third parties to utilize a particular payment method, system, software or service, and such agreements may be subject to increased regulatory scrutiny. Additionally, certain Mobile Payment Companies have recently faced increased costs related to class-action litigation challenging such agreements. Such factors may adversely affect the profitability and value of such companies. The Fund is non-diversified, meaning it may concentrate its assets in fewer individual holdings than a diversified fund. Investments in smaller companies tend to have limited liquidity and greater price volatility than large-capitalization companies. The Fund's return may not match or achieve a high degree of correlation with the return of the Prime Mobile Payments Index. To the extent the Fund utilizes a sampling approach, it may experience tracking error to a greater extent than if the Fund had sought to replicate the Index. Diversification does not guarantee a profit, nor does it protect against a loss in a declining market.

ETF Managers Group LLC is the investment adviser to the Fund.

The Fund is distributed by ETFMG Financial LLC. ETF Managers Group LLC and ETFMG Financial LLC are wholly owned subsidiaries of Exchange Traded Managers Group LLC (collectively, "ETFMG"). ETFMG is not affiliated with Prime Indexes.
