

ETFMG Alternative Harvest ETF

as of 6/30/20

MJ tracks the Prime Alternative Harvest Index, designed to measure the performance of companies within the cannabis ecosystem benefitting from global medicinal and recreational cannabis legalization initiatives.

The first U.S. and world's largest ETF to target the global cannabis industry.

The global cannabis market is expected to grow at a CAGR of 23.9% and reach \$66.3B by 2025.¹

Many other significant applications for cannabis and THC based medicines and treatments ranging from epilepsy to cancer treatment to non-opioid pain management.

Performance

*On December 26, 2017, the Fund's investment objective and principal investment strategy were substantially revised; therefore, the performance and average annual total returns shown for periods prior to December 26, 2017 is likely to have differed had the Fund's current investment strategy been in effect during those periods. The Fund's prior investment objective sought to provide investment results that corresponded to the performance of the Solactive Latin America Real Estate Index, which tracked equities with primary listings in the Latin America region that derived most of their income from real estate and real estate services. The Fund began tracking the Prime Alternative Harvest Index on December 26, 2017.

US Marijuana Legalization Map

The above map is intended to show U.S. states that have passed legislation to legalize the use of either recreational or medicinal marijuana. Prospective investors should understand the possession and use of marijuana, even for medical purposes, is still illegal under federal law. Even in those states in which the use of marijuana has been legalized, its possession and use remains a violation of federal law. The Fund does not invest in any U.S. or foreign company whose business activities are illegal under any applicable federal or state law.

Carefully consider the Fund's investment objectives, risk factors, charges and expenses before investing. This and additional information can be found in the Fund's statutory and summary prospectus, which may be obtained by calling 1-844-383-6477, or by visiting www.etfmg.com/MJ. Read the prospectus carefully before investing.

² Security Lending income is expressed as the result of dividing net securities lending income for the twelve months ending 6/30/20 divided by the average daily net assets of the Fund for the same period.

³ Holdings are subject to change.

⁴ AUM as of 6/30/20 and is subject to change on a daily basis.

Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Narrowly focused investments typically exhibit higher volatility. The possession and use of marijuana, even for medical purposes, is illegal under federal and certain states' laws, which may negatively impact the value of the Fund's investments. Use of marijuana is regulated by both the federal government and state governments, and state and federal laws regarding marijuana often conflict. Even in those states in which the use of marijuana has been legalized, its possession and use remains a violation of federal law. Federal law criminalizing the use of marijuana pre-empts state laws that legalizes its use for medicinal and recreational purposes. Cannabis companies and pharmaceutical companies may never be able to legally produce and sell products in the United States or other national or local jurisdictions.

The Fund's investments will be concentrated in an industry or group of industries to the extent that the Index is so concentrated. In such event, the value of the Fund's shares may rise and fall more than the value of shares of a fund that invests in securities of companies in a broader range of industries. The consumer staples sector may be affected by the permissibility of using various product components and production methods, marketing campaigns and other factors affecting consumer demand. Tobacco companies, in particular, may be adversely affected by new laws, regulations and litigation. The consumer staples sector may also be adversely affected by changes or trends in commodity prices, which may be influenced or characterized by unpredictable factors.

The Fund is distributed by ETFMG Financial LLC. ETF Managers Group LLC and ETFMG Financial LLC are wholly owned subsidiaries of Exchange Traded Managers Group LLC (collectively, "ETFMG"). ETFMG Financial is not affiliated with Prime Indexes.
