Fund Objective

The Sit Rising Rate ETF (RISE™) seeks to profit from rising interest rates by tracking the performance, before fees and expenses, of a portfolio (the "Benchmark Portfolio Index") consisting of exchange traded futures contracts and options on futures on 2, 5, 10 year U.S. Treasury securities weighted to achieve a targeted negative 10-year average effective portfolio duration. The Benchmark Portfolio Index is maintained by Sit Fixed Income Advisors II, LLC.

Investment Strategy

The weighting of the Treasury Instruments constituting the Benchmark Portfolio Index will be based on each maturity's duration contribution. The expected range for the duration weighted percentage of the 2-year and 5-year maturity Treasury Instruments will be from 30% to 70%. The expected range for the duration weighted percentage of the 10-year maturity Treasury Instruments will be from 5% to 25%. The relative weightings of the Benchmark Component Instruments will be shifted between maturities when there are material changes in the shape of the yield curve.

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This material must be accompanied or preceded by a prospectus. Please read the prospectus carefully before investing.

¹ AUM as of 9/30/20 and is subject to change on a daily basis.

² Holdings are subject to change without notice.

³ Related fees paid by the fund are capped at 1.00%. Beginning on January 1, 2018, the Sponsor has contractually agreed to waive the Sponsor Fee and/or assume the Fund's Other Expenses (which term excludes brokerage fees, interest expense, and extraordinary expenses) so that the Fund's Total Annual Fund Expenses do not exceed 1.00% per annum through January 31, 2021. The fees and expenses in the current prospectus reflect the expense limitations as described in the footnote to Total Annual Fund Expenses after Waivers/Assumptions.

The Fund is not a mutual fund or any other type of investment company within the meaning of the Investment Company Act of 1940, as amended, and is not subject to regulation thereunder.

The NAV of the Fund's shares relates directly to the value of U.S. Treasuries and Treasury Instruments held by the Fund which are materially impacted by interest rate movements. The magnitude of the impact on value from a change in interest rates is often greater for longer-term fixed income securities than shorter-term securities. You should carefully consider whether your financial condition permits you to participate in a commodity pool. In doing so, you should be aware that commodity interest trading can quickly lead to large losses as well as gains. Such trading losses can sharply reduce the net asset value of the pool and consequently the value of your interest in the pool. In addition, restriction on redemptions may affect your ability to withdraw your participation in the pool. Further, commodity pools may be subject to substantial charges for management, advisory and brokerage fees. Sit Fixed Income Advisors II, LLC ("Sit Advisors") is registered as a "commodity trading advisor" and will act as such for the Fund. Sit Advisors is a subsidiary of Sit Investment Associates, Inc. ("Sit"). Sit is a full product global asset manager offering management expertise in domestic equities, international equities and fixed income instruments.

It may be necessary for those pools that are subject to these charges to make substantial trading profits to avoid depletion or exhaustion of their assets.

ETF Managers Capital LLC serves as the commodity pool operator to the Fund as is restricted on such capacity with the NFA.

The fund is distributed by ETFMG Financial LLC. ETF Managers Capital LLC and ETFMG Financial LLC are wholly owned subsidiaries of Exchange Traded Managers Group LLC (collectively, "ETFMG"). ETFMG is not affiliated with Sit.
