Fund Objective

The ETFMG Sit Ultra Short ETF ("The Fund") is an actively managed exchange-traded fund (ETF) that seeks maximum current income, consistent with preservation of capital and daily liquidity. The Fund seeks to achieve its investment objective by investing in a diversified portfolio of high-quality, short-term U.S. dollar-denominated domestic and foreign debt securities and other instruments. The Fund uses the Bloomberg Barclays U.S. Treasury Bills Index: 1-3-month Index as its benchmark index. The Fund seeks to maintain an average effective duration within a range of 2 months to 1 year.

Carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and additional information can be found in the Fund's prospectus, which may be obtained by calling 1-844-ETF-MGRS (1-844-383-6477), or by visiting www.etfmg.com/VALT. Read the prospectus carefully before investing.

Investing involves risk. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Although the Fund's shares are approved for listing on the Exchange, there can be no assurance that an active trading market will be maintained for Fund shares.

The market price of the Fund's fixed-income instruments may change, sometimes rapidly or unpredictably, in response to changes in interest rates, factors affecting securities markets generally, and other factors. Generally, when interest rates rise, the values of fixed-income instruments fall, and vice versa. The Fund may invest in floating rate securities, which are generally less sensitive to interest rate changes than securities with fixed interest rates but may decline in value if their interest rates do not rise as much, or as quickly, as comparable market interest rates. The Fund may invest in U.S. dollar-denominated debt obligations of foreign issuers. Mortgage- and asset-backed securities are subject to interest rate risk. Modest movements in interest rates (both increases and decreases) may quickly and significantly reduce the value of certain types of these securities. From time to time the Fund may invest a substantial amount of its assets in taxable or tax-exempt municipal securities whose interest is paid solely from revenues of similar projects.

The Fund is recently organized with a limited operating history. The Fund may not meet its investment objective based on the success or failure to implement investment strategies for the Fund.

The Fund's investment strategy may require it to redeem shares for cash or to otherwise include cash as part of its redemption proceeds. In the event of large shareholder redemptions, the Fund may have to sell portfolio securities at times when it would not otherwise do so, which may negatively impact the Fund's performance.

ETF Managers Group LLC is the investment advisor to the Fund. Sit Fixed Income Advisors II LLC ("Sit Advisors") is the sub-advisor to the Fund. Sit Advisors is a subsidiary of Sit Investment Associates Inc. ("Sit"). Sit is a full product global asset manager offering management expertise in domestic equities, international equities and fixed income instruments.

ETFMG Financial is the distributor of the Fund. ETF Managers Group LLC and ETFMG Financial LLC are wholly owned subsidiaries of Exchange Traded Managers Group LLC (collectively, "ETFMG"). ETFMG is not affiliated with Sit.
